PREFACE

This Register contains the names and some historical record of (1) Normal graduates, (2) high school graduates, (3) members of the State Board of Education, (4) members of the regular faculty, and (5) members of the summer school faculty not included in the regular faculty. For the special interest and convenience of those graduates living in states other than Illinois a geographical distribution outside of Illinois is given.

An attempt has been made to record concerning each graduate (1) full name, (2) present occupation if not teaching, (3) address, (4) schools attended since graduation, with degrees and academic honors if any, (5) professional positions held, (6) public offices held, (7) membership in learned or other important organizations, (8) husband or wife, (9) number and sex of children.

Members of the Board of Education and of the faculties are listed and numbered in the order of appointment. These names are indexed by number.

The names of about forty graduates for whom we have no valid address are marked with a dagger (†). Information that will enable us to reach these persons will be received as a special courtesy. Some names are marked with a double dagger (‡). These we have not heard from directly, but believe the address given is correct.

Any correction or additional data regarding any record herein will be gratefully received and properly entered in the office files and printed in the next issue of the Register.

The abbreviations used are mostly self-explanatory, but a few may not be so:

d.=died or deceased.	pres.=president.
*=deceased.	pub.=published.
†=present address unknown.	pub. sch.=public school.
‡=not heard from in 1911-12.	h. s.=high school.
stu.=student or studied.	m.=married.
t=teaching, taught.	

Some of the forms recommended by the simplified Spelling Board are used.

When name of state is not given, Illinois is understood.

In spite of the most faithful effort it has been impossible to make all the records complete; and some errors are sure to appear. But the cordial cooperation of many of the graduates has enabled us to reduce these defects to a minimum. To such persons particularly and to every graduate who has responded promptly and fully to our call we send cordial thanks; and with best wishes from the "I.S.N.U.," we bespeak a continuance of friendly and mutually helpful relations.
